Logic / Logical Proof

Biased Logic runs the danger of Schrodinger's Cat. Until 1 or 3 is determined, the Hypothesis joins Schrodinger's Cat in the box, but, if #2 is the case, then #1 will never occur to determine #3.

Order of Operations

NATURAL Path (Intuition)

"My Questions" - Pursuit of MY CURIOSITY

1. Anna has not gotten to that Hypothesis yet because it is further up in the Order of Operations, and thus, Anna's Intuition and Logic have not found it yet, but they will.
2. The Hypothesis is not on Anna's Path because Anna's Intuition and Logic does not align with Anna's Desire, Intuition, and Logic.
3. The Hypothesis contains False Logic and therefore, Intuition and Logic will never Align with it.

PRIORITY: TRUTH

Either

Illogical Bias OR

Logical Intuition

Schrodinger's Cat: The Hypothesis is either 1 or 3, and thus is neither Logical nor Illogical because, until we can prove the logic or illogic, we cannot determine if the Hypothesis is Valid or Invalid.

Priority

Value

What you WANT

I am an Agent of Science vs. Science is an Agent for me.  
I am an Agent of Mother Nature = Science

My Priority : Truth

Value THE ADVANCEMENT AND GROWTH OF HUMAN, OF  
KNOWLEDGE  
OF OUR EXPANSE OF OUR KNOWING

I WANT TO expand our knowing.

He WANTS to contribute

HE wants to be valuable to science

Weigh in the Values

Priority and Value for Truth > Value for Self
